*Touching our World One Community at a Time*

Dear Friends and Community Partners,

Thunder Outreach invites you to be part of the August 2008 community improvement project called "Boyertown Inn Makeover". The basic concept of this project is to improve the exterior of the historic Boyertown Inn, located at Routes 562 and 73, while at the same time, interacting and positively touching the residents who live in this building.

This large undertaking will require input, help and support from the whole community of Boyertown.

Step #1 Exterior Improvements will include power washing the front of the building, repointing and repairing stone work, minor repairs to wood and trim around windows, replacement of windows that are severely damaged. Changing the paint scheme of the building to its historical Victorian colors.

How you can help:

- We are looking for teams or individuals to help scrape and paint the building
- We are also looking for professional trained carpenters and painters for some of the more difficult areas of the building
- Financial donations toward paint and materials for project
- Donations or lending of equipment such as ladders and painting supplies

For more information about this project you can go to our website at: [www.ThunderOutreach.com](http://www.ThunderOutreach.com) and click on the "Boyertown Inn Makeover" logo.

Step #2 will include working with local faith based programs to offer counseling, humanitarian needs and support to residents living at the Inn.

It has always been said that people do not care what you know till they know that you care. Here is our chance to positively impact a region with a few simple steps of love and kindness. Please join with us to make a difference in our community that will touch thousands of people's lives.

Sincerely,
